Colorado Access recommends that a standard management guideline for follow-up of abnormal Pap tests be selected and followed.

A management algorithm has been released titled “Using HPV genotyping to Manage HPV High-Risk Positive/Cytology Negative Women 30 Years and Older”. It is available at: 2009 Algorithm: Use of HPV Genotyping to Manage HPV HR * Positive/Cytology Negative Women 30 Years and Older

Other guidelines are available:
Following are three other guidelines available that may fit your needs. These guidelines offer further clarification and/or variations to the guideline listed above.
